**STAY HEALTHY**

Important tips to remember during the Covid-19 pandemic:

- Wear cloth face masks when going out in public.
- Only leave your home when absolutely necessary.
- Regularly wash your hands for 20 seconds with soap and water.
- Use hand sanitizer with at least 60% alcohol.
- Avoid touching your face.
- Refrain from greeting people by shaking hands, kissing or hugging.
- Cover your coughs and sneezes.
- Keep a distance of 6 feet between you and others.
- Keep 2-4 weeks of food on hand.
- Avoid overstocking supplies that are in high demand so other people will have access to the needed essentials as well.
- If you take medication, make sure to get refills and keep a month's supply on hand if possible.
- Get your information from reliable sources such as the CDC or WHO.

**February is American Heart Month**

To keep your heart healthy, make sure you understand your risks and get your blood pressure and cholesterol checked on a regular basis. Choosing healthy foods and using portion control will help you work toward or maintain a healthy weight. Make sure to add in daily physical activity as well. Stress can be damaging to your heart health. If you feel stressed, find useful and fun ways to relieve your stress. Quit smoking if you are a smoker. Make sure to enough good quality sleep each day to allow your body to relax and repair.

**NEW LOCATIONS**

We are pleased to announce we have added the following locations:

* Tarboro, NC
* Greenville, NC

Rick is a sweet, caring person. I have truly enjoyed caring for him. We have established a bond as patient and caregiver. Rick has a sweet spirit about him. Rick loves music and playing basketball, that was our daily exercise. The family expressed to me that he would start calling my name when he knew it was time for me to get there. Rick may have down syndrome but he is very smart and keen to everything around him. Nothing gets past him. I truly love him and the family. I wouldn’t trade the bond we have for nothing in the world. I was truly blessed to have him as a patient and friend. — Bertha Sanderson

**The majority of billing denials are for the hours being over the authorization PHC QP’s** – To ensure consumers are not going over their authorizations, it is best to keep a tracking of what hours the consumer is using.

**APC Office Managers** – For PCS, compare the timesheets to the calendar before entering the time into Barnestorm. For CAP, compare the timesheets to the authorization before entering the time into Barnestorm. ***Respite hours are tracked from July-June (no matter what dates are on the authorization) to ensure that the patient does not go over their authorization.***
